# UNPACKING FREIGHT

*From Producers to Front Doors*

**Workshop Purpose:** Bring participants together from often separate parts of the transportation ecosystem to focus on uniqueness, shared issues and solutions, and opportunities to make a safer and more seamless network for both people and goods.

*Acknowledge the disconnects between freight and other parts of the transportation network*

*Identify shared interests that exist between moving people and moving goods*

*Advance solutions that promote win-win outcomes for both sectors*

## WORKSHOP TOPICS

- Safety
- Design and citing of facilities
- Technology
- Others for consideration?
